Dear Sirs and Madams,

I am a current resident at The forty love community in Richland County SC. I recently received a letter that informed me that the current provider for dark water was requesting an increase for disposal of waste. I really don't think that such a request is warranted. When they purchased the existing system they chose not to upgrade but to keep the existing systems in place instead of a direct flow system. Now they want to increase revenue on the homeowner.

They also want to use terminology such as "exact cost" we have no way to control these "exact cost" or to verify that that is the exact cost! they could be using higher wage employees to offset their wades or performing

this work at overtime rates or after hours. They currently are allowed to charge \$150 to perform such services which is about the current rate to perform this service. Some are charging \$125 for this same service. We should not be held hostage for removal of waste that is a normal function for sewer removal. I respectfully request that you deny this request for an increase when they could outsource this for less money than they want to charge us now.

Sincerely,

H M Fields . .
